SAFETY & MARKING TAPES

VP 410

UV-resistant SPVC line set tape, available in a variety of colors, used for general purpose floor, lane and aisle marking, color-coding and identification applications, as well as in the HVAC industry to wrap line sets, seam closed cell sponge insulation, and insulate air ducts and underground pipes; meets OSHA requirements.

VP 415

An SPVC film warning stripe tape used for lane marking and identification of safety zones and hazard areas. VP 415 is constructed with a flexible backing that is resistant to abrasion, UV light, acid, alkalides, oils, moisture, humidity and corrosion, and meets OSHA requirements for hazard markings.

BT 100

Non-adhesive barricade tape for marking restricted areas and managing access to work sites by professionals in the safety, construction, utilities, hardware and other industries.

Available in bilingual print (English/Spanish).
