Performance Masking Tapes

Shurtape®
CP 180 Light Yellow

Performance grade, medium-high adhesion masking tape for use in temperatures up to 180 F.

- Conformable automotive masking tape with instant adhesion to even and uneven automotive surfaces (metal, rubber, plastic, anodized aluminum and chrome)
- Compatible with solvent-based and waterborne paints and coatings
- Good for tape-on-tape applications (shingling)

Shurtape®
CP 200 Orange

Performance grade, medium-high adhesion masking tape for use in temperatures up to 200 F.

- More conformable around curved surfaces than most other automotive masking tapes
- Instant, medium-high adhesion to various automotive surfaces (metal, rubber, plastic, anodized aluminum and chrome)
- Resistant to water, various solvents and oil
- Good for tape on tape applications (shingling)

FrogTape® 225
Gold (CP 225)

Performance grade, medium-high adhesion masking tape for use in temperatures up to 225 F.

- For moderate temperature paint masking applications in transportation (auto, coaches, buses) and metal fabrication
- Excellent adhesion to metal, rubber, plastic, anodized aluminum, chrome and fiberglass
- Compatible with solvent-based and waterborne, aqueous paints and coatings for automotive

FrogTape® 250
Light Blue (CP 250)

Performance grade, medium-high adhesion masking tape for use in temperatures up to 250 F.

- For moderate temperature, demanding paint masking applications in transportation (auto, coaches, buses) and metal fabrication
- Excellent adhesion to metal, rubber, plastic, anodized aluminum, chrome and fiberglass
- Compatible with solvent-based and waterborne, aqueous paints and coatings for automotive

Shurtape®
CP 650

High performance grade, medium-high adhesion masking tape for industrial use in temperatures up to 325 F.

- Clean, flat edges for sharper paint lines
- Warm or cold residue-free removal
- Recommended for indoor use only

Shurtape®
CP 901

High performance grade, high adhesion masking tape with heavy duty backing for industrial use in temperatures up to 350 F.

- Residue- and splinter-free removal
- Designed for temperatures up to 350 F, but capable of withstanding temperatures up to 475 F for short durations (1-2 min)
- Recommended for indoor use only

FrogTape®
FLC 280

Performance grade, fineline masking tape for use in temperatures up to 280 F and when tight curves are needed.

- Solvent- and moisture-resistant
- Highly conformable for use in compound and tight radius curves
