CLOTH & DUCT TAPES

When easy handling, varying adhesion levels and durable construction characteristics are needed, trust the complete line of Shurtape cloth and duct tapes to give every job a distinctive mark of **excellence**.

Shurtape®
TRUE TO YOUR WORK™

DUCK PRO®
BRAND DUCT TAPE
by Shurtape®

T-REX®
FEROCIOUSLY STRONG TAPE™

We are proud to craft
– and supply – the right tape
solution for every job. And we are
proud to manufacture many of
those tapes right here in the USA.
Look for this icon for items that
are **Made in the USA**
with Local & Global Materials.

From utility and general purpose grades for applications like bundling, sealing and repairing to professional and premium grades to tackle applications that demand aggressive stick and superior hold, Duck Pro® by Shurtape® offers a wide range of tape solutions to get the job done.

Duck Pro® PC 6

Utility Grade, Co-Extruded Cloth Duct Tape

Utility grade cloth duct tape for non-critical, general use applications, including packaging, bundling, sealing, repairing, holding and waterproofing. This economical, co-extruded solution is built to last and offers good conformability and easy handling to prevent it from twisting or curling during application.

Duck Pro® PC 9C

General Purpose, Contractor Grade, Colored Cloth Duct Tape

General purpose, contractor grade cloth duct tape, available in a wide variety of colors, for sealing, seaming, repairing, holding and industrial color-coding and splicing applications. A poly-coated, repair duct tape, PC 9C Duck Pro® by Shurtape® provides quick stick, easy tearability and indoor clean removal for 30 days to finish jobs with speed and ease.

Duck Pro® PC 9S

General Purpose, Contractor Grade, Co-Extruded Cloth Duct Tape

General purpose, contractor grade cloth duct tape featuring aggressive adhesive and cold temperature performance for sealing, seaming, repairing, holding and waterproofing applications, as well as for tasks in the restoration industry, such as hanging poly-sheeting. A co-extruded, repair duct tape, PC 9S Duck Pro® by Shurtape® provides superior adhesion with quick stick; excellent holding power for indoor and outdoor use; and easy tearability with indoor clean removal for 30 days to finish jobs with speed and ease.

Duck Pro® PC 608

General Purpose, Contractor Grade, Co-Extruded Abatement Duct Tape

General purpose grade, co-extruded abatement duct tape for use with building containments and a variety of other applications in remediation, restoration and abatement jobs, including mold and asbestos removal. PC 608 Duck Pro® by Shurtape® combines a high-tack, high-performing cold temperature adhesive with good conformability to a variety of surfaces to deliver exceptional performance when hanging poly-sheeting.

QUALITY PERFORMANCE

TRUSTED RESULTS

Duck Pro® by Shurtape® Cloth and Duct Tapes

All jobs have one thing in common: they must be done right. That's why our line of Duck Pro® by Shurtape® Cloth and Duct Tapes is engineered to exacting specs, making these tapes some of the strongest and most reliable duct tapes on the market.

DUCK PRO® BY SHURTAPE® DUCT TAPES

Duck Pro® PC 619

General Purpose Grade, Specialty Grade, Fluorescent Cloth Duct Tape

General purpose, specialty grade cloth duct tape, available in a selection of fluorescent colors, for color-coding, labeling, floor marking and book-binding, and for general use in the hospitality, convention, motorsports and floral industries. For use indoors, PC 619 Duck Pro® by Shurtape® is conformable to a variety of surfaces, hand-tearable and easy to unwind off the roll.

Duck Pro® PC 609

Professional Grade, Co-Extruded Cloth Duct Tape

Professional grade cloth duct tape for use in a variety of industries, including in the HVAC industry to repair thermal insulation and seal metal ductwork; in the manufactured housing industry to seam bottom boards and for patching, seaming and sealing; and general purpose use for packaging, bundling, holding, wrapping and waterproofing. PC 609 Duck Pro® by Shurtape® co-extruded duct tape offers extremely aggressive adhesion, good conformability to a variety of surfaces, and performs well in warm or cold climates.

Duck Pro® PC 618C

Professional Grade, Industrial Colored Cloth Duct Tape

Professional grade, industrial cloth duct tape, available in a wide variety of colors, for holding, securing, seaming, repairing, bundling, splicing, packaging, color-coding and masking in HVAC, industrial, commercial, utilities, trucking and automotive applications, and can also be used as a condensation barrier in appliance assemblies. PC 618C Duck Pro® by Shurtape® is easy to unwind and tear, conforms well to a variety of surfaces and offers excellent holding power, no matter the job.

Duck Pro® PC 618S

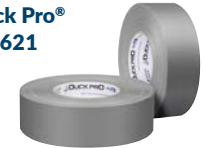

Professional Grade, Industrial Co-Extruded Cloth Duct Tape

Professional grade, industrial cloth duct tape for holding, securing, seaming, repairing, bundling, splicing, packaging and masking in HVAC, industrial, commercial, utilities, trucking and automotive applications, and can also be used as a condensation barrier in appliance assemblies. Co-extruded PC 618S Duck Pro® by Shurtape® is easy to unwind and tear, conforms well to a variety of surfaces and offers excellent holding power, no matter the job.

Duck Pro® PC 621

Professional Grade, All-Purpose Cloth Duct Tape

Heavy duty cloth duct tape designed for HVAC applications to hold, seal and seam sheet metal and flex duct, exhaust vents and preformed insulation, and can also be used in industrial applications for holding, splicing, protecting and packaging. Use PC 621 Duck Pro® by Shurtape® for demanding applications that require an easy-to-use tape with excellent conformability, tack and holding power.

Duck Pro® PC 657®

Professional Grade, Heavy Duty, Co-Extruded Cloth Duct Tape

Professional grade, heavy duty cloth duct tape used for protection during sandblasting and media blasting, in pre-manufactured housing and RV assembly, high-performance motorsports and other critical industrial applications. Co-extruded PC 657® Duck Pro® by Shurtape® is designed for applications that require a tape with high tack and excellent holding power, durability and temperature resistance.

Duck Pro® PC 769

Professional Grade, Clean Removal Duct Tape

Clean removal duct tape designed to offer aggressive adhesion without leaving residue behind for up to 6 months on indoor and outdoor surfaces once the tape is removed. PC 769 Duck Pro® by Shurtape® is waterproof, UV-resistant and can be used for a variety of indoor and outdoor projects such as holding cords, bundling and repair projects.

DUCK PRO® BY SHURTAPE® DUCT TAPES

Duck Pro® DF 545

Professional Grade, Premium Double-Coated Cloth Tape

Professional grade, premium performance grade double-coated cloth tape for securing carpet and pad at convention centers, arenas and hotels, and can also be used for general purpose hanging and splicing applications. Engineered with a versatile adhesive system that provides superior adhesion to concrete, tile, hardwood and irregular surfaces, as well as a special poly laminate layer that provides high tensile strength, DF 545 Duck Pro® by Shurtape® is constructed to stand up to demanding applications and has indoor 30-day clean removal.

Duck Pro® PC 745

Premium Grade, Super-Tough Duct Tape

Super-tough, premium co-extruded cloth tape for all-weather use on rough surfaces, for heavy duty repairs, and can also be used as a bottom board tape in the manufactured housing industry. PC 745 Duck Pro® by Shurtape®, from the makers of T-Rex® Tape, combines a waterproof, reinforced backing with twice the adhesive to deliver a ferociously strong tape with unrivaled staying power.

Polybonded CO-EX Technology®

Duct tape is not a one-size fits all tool. Knowing how each manufacturing process impacts performance will help you choose the best duct tape for the job.

CO-EX vs. Laminated Duct Tape

Co-Extruded

The co-extrusion process melds polyethylene, cloth and adhesive in a single, high-temperature step, resulting in a permanent, airtight bond. This seamless construction creates added strength to prevent delamination and can withstand a variety of weather conditions, making these tapes ideal for indoor and outdoor use.

Laminated

Lamination is the most common method for manufacturing duct tape, and involves the continuous combination of film, cloth and adhesive. Laminated duct tapes are flexible and conformable to a variety of surfaces, delivering better performance for uneven or curved surfaces.

From bundling and sealing to repairing and holding, our general purpose duct tapes are engineered for a variety of applications and are among the strongest and most reliable on the market. Whether you need duct tape that can handle severe weather conditions, duct tape for non-critical conditions, or anywhere in between, we have a duct tape that is exactly what you are looking for.

PC 7 Utility Grade, Co-Extruded Duct Tape

Utility grade cloth duct tape that offers aggressive adhesive and best-in-class performance for sealing, seaming, repairing, holding and waterproofing applications, even in cold temperatures. Co-extruded PC 7 offers superior adhesion with quick stick; excellent holding power for indoor and outdoor use; and easy tearability to finish jobs with speed and ease.

PC 8 General Purpose Grade, Co-Extruded Duct Tape

General purpose grade cloth duct tape with aggressive adhesive and best-in-class performance for sealing, seaming, repairing, holding and waterproofing applications, as well as for tasks in the restoration industry. PC 8 is a co-extruded duct tape offering excellent cold temperature performance; superior adhesion with quick stick; exceptional holding power for indoor and outdoor use; and easy tearability to finish jobs with speed and ease.

PC 622 Premium Grade Stucco Duct Tape

Premium grade cloth duct tape used for protecting window and door frames during stucco application, as well as for various applications in high performance motorsports and for heavy duty bundling, holding and splicing. PC 622 combines high tensile strength, excellent holding power and conformability to deliver a tape solution that can withstand the rigors of the job.

PC 667 Specialty Grade, Outdoor Stucco Duct Tape

Specialty grade, outdoor cloth duct tape used for protective masking of non-painted surfaces, including steel, vinyl, aluminum and anodized metals, in plastering, stucco, concrete, pool and tile applications where UV resistance is required. A co-extruded stucco masking tape, PC 667 offers 14-day UV resistance, clean removal and easy tearability for the task at hand.

When the quality of your work relies on your ability to produce an airtight bond on joints and seams, you need products that meet your tough standards. Whether you're working in vast temperature ranges, need a maximum-strength solution or a tape built for aesthetics and performance, you can count on Shurtape to be reliable, roll after roll.

PC 857 UL 181B-FX Listed/Printed Cloth Duct Tape

UL 181B-FX Listed and printed cloth duct tape used in the HVAC industry to seal, seam and join Class 1 Flex Duct, even when surfaces are rougher or not fully clean. Offering high holding power, superior shear strength and excellent tearability, PC 857 is recommended for applications in which the tensile strength and adhesion to stainless steel and polyethylene must meet or exceed the strict requirements of UL, flex duct manufacturers and city and state codes.

SF 682 ShurFLEX® Non-Printed Metalized Cloth Duct Tape

ShurFLEX® HVAC non-printed professional grade metalized cloth duct tape designed for airtight and moisture-free seaming, connecting, splicing, patching and sealing of sheet metal and flex duct, rigid ductboards, air vents, insulation, fibrous filter banks and pollution collection systems. For superior performance, SF 682 is easy to use, hand-tearable and designed in color and appearance to match sheet metal, flex duct and ductboard.

SF 683 ShurFLEX® Printed Metalized Cloth Duct Tape

ShurFLEX® HVAC printed professional grade metalized cloth duct tape for use in the HVAC industry to seam, connect, splice, patch and seal sheet metal and flex duct, insulation, rigid ductboards, air vents and fiber board. SF 683 is designed in color and appearance to match sheet metal, flex duct and ductboard, is hand-tearable, and delivers an airtight and moisture-free seal.

MJ 100 Fiberglass Mesh Tape

Open weave fiberglass mesh tape used for reinforcing joints, seams and connections when paint-on mastic is used in HVAC applications, and can also be applied to drywall seams before the application of joint compound. MJ 100 drywall tape is self-adhering and offers superior strength compared to paper.

HEAVY DUTY DUCT TAPES

There is only one thing that matters when it comes to duct tape — it needs to work. Shurtape heavy duty duct tapes are designed to deliver superior adhesion and holding power — and that's why they're trusted by craftsmen and industries across the globe.

PC 658

Co-Extruded Super Bottom Board Tape

Super bottom board tape used for seaming and sealing bottom board materials in pre-manufactured housing and RV assembly, set-up and maintenance, as well as to protect surfaces in metal-peening operations. Co-extruded PC 658 delivers high tensile strength and superior adhesion, holding power and durability for tough applications.

SPECIALTY DUCT TAPES

For nuclear grade applications that demand a high-performance solution, Shurtape delivers. Our specialty grade duct tapes offer high performance, conformability and holding power, no matter the job.

PC 623

Nuclear Grade Cloth Duct Tape

Economical nuclear grade cloth duct tape used for a variety of purposes in the construction, operation and maintenance of nuclear power facilities, in addition to holding to stainless steel pipes, color-coding and sealing endcaps on stainless steel pipes. PC 623 offers a high-tack adhesive, excellent holding power and conformability, and is ASME NQA-1 tested.

PC 624

Premium Nuclear Grade Cloth Duct Tape

Premium nuclear grade cloth duct tape for a variety of uses in the construction, operation and maintenance of nuclear power facilities. Designed with performance and quality in mind, PC 624 combines high tack, excellent holding power and conformability into a tape solution that meets ASME NQA-1 guidelines.

PC 625

Military Spec, Lusterless Cloth Duct Tape

Military spec lusterless cloth duct tape for use as a premium, waterproof packaging tape that meets government specifications, as well as for moisture-proofing cartons, canisters and tubing. PC 625 is engineered for durability and performance, with a waterproof backing, high holding power, conformability and high tensile strength.

We offer a complete line of matte-finish coated cloth and gaffer's tapes for use in the arts and entertainment, photography and book-binding industries. With excellent temperature resistance, adhesion and clean removal, these tapes also meet the high standards required for HVAC and industrial use.

P- 628

Professional Grade, Coated Gaffer's Tape

Professional grade gaffer's tape suited for general use in the convention, hospitality, exhibition and trade show industries, as well as in the audio/visual, television, photography, theatrical and motion picture industries to bundle wires, tape down cords, lighting and props, and mask silk screen frames. Durable P- 628 offers a combination of excellent holding power, conformability and high tensile strength to get the job done quickly and efficiently.

P- 660

Professional Grade, Fluorescent Gaffer's Tape

Professional grade gaffer's tape, available in a variety of highly visible fluorescent colors with matte finish, for bundling or securing wires, cables and props in the audio/visual, television, photography, theatrical and motion picture industries, as well as for use in color-coding, labeling, marking and book-binding applications. This durable tape offers excellent holding power, conformability and high tensile strength, and will fluoresce under a black light.

P- 661

Glow-In-The-Dark Specialty Gaffer's Tape

Glow-in-the-dark specialty gaffer's tape for use in safety marking and a multitude of applications in the audio/visual, television, photography, theatrical and motion picture industries. Constructed with a premium photo luminescent pigment that provides increased glow intensity and extended glow duration, P- 661 is hand-tearable in both directions, writable and printable with a non-smearing surface, conforms to complex 3D surfaces and removes cleanly when the job is done.

P- 672

Premium Grade, Light Duty Gaffer's Tape

Premium grade, matte-finish, coated cloth tape for sealing containers and protection from welding splatter, as well as for general holding, bundling and temporary repair applications. P- 672 is ideal for light duty jobs that require a strong, abrasion-resistant cloth tape.

P- 665

Professional Grade, Clean Removal Gaffer's Tape

Professional grade gaffer's tape for demanding applications that require clean removal in the audio/visual, television, photography, theatrical and motion picture industries, such as holding wiring, lighting and props. P- 665 is constructed with an aggressive adhesive and is hand-tearable and conformable for easy use on the set.

P- 665W

Professional Grade, Coated Gaffer's Tape

Professional grade gaffer's tape suited for general use in the convention, hospitality, exhibition and trade show industries, as well as in the audio/visual, television, photography, theatrical and motion picture industries to bundle wires, tape down cords, lighting and props, and mask silk screen frames. Durable P- 628 offers a combination of excellent holding power, conformability and high tensile strength to get the job done quickly and efficiently.

Duct Tape vs. Gaffer's Tape What's the Difference?

Often times, these tapes are mistaken for being interchangeable. On the contrary, duct and gaffer's tapes are constructed differently because they are designed for different purposes. Duct tape is constructed with a waterproof backing and contains an aggressive, natural rubber-based adhesive, which makes it a good choice for making repairs, bundling heavy materials and sealing leaks. On the other hand, gaffer's tape has a coated cloth backing and a synthetic rubber-based adhesion system, which means it is not a good choice for waterproofing applications, but ideal for temporary jobs.

If you remember one thing about the difference between duct and gaffer's tape, remember this: gaffer's tape removes cleanly, but duct tape does not. Gaffer's tape is the best choice for the arts and entertainment industry, as it removes from carpets, cables, stages and other surfaces easily without causing damage or leaving adhesive residue.

With a wide variety of aggressively strong tapes for all-weather durability, T-Rex® brand is designed for those moments in your life when you need intense holding power, no matter the application.

T-Rex® PC 745

Super-Tough, Premium Cloth Tape

Super-tough, premium co-extruded cloth tape for all-weather use on rough surfaces, for heavy duty repairs, and can also be used as a bottom board tape in the manufactured housing industry. A "monster" of a tape, T-Rex® PC 745 combines a waterproof, reinforced backing with twice the adhesive to deliver a ferociously strong tape with unrivaled staying power.

T-Rex® Brute Force®

Premium Cloth Tape with Extreme Tensile Cloth

Super-tough, premium co-extruded cloth tape for the most extreme applications such as securing, hauling, binding, repairing, holding, and can also be used as an alternative to ropes and chains in many applications. Engineered with Forge-Link™ Technology, an extreme tensile cloth, T-Rex® Brute Force® offers all-weather performance and sticks to rough and dirty surfaces.

T-Rex® Waterproof Tape

Waterproof Tape with R-Flex Technology™

Premium cloth tape that provides tough waterproof adhesion under wet and dry conditions. Built with R-Flex Technology™, T-Rex® Waterproof Tape can stretch up to 700% of its original length and can even be applied underwater. Formulated to withstand extreme temperatures from -70 F - 200 F, this waterproof tape's UV-resistant formulation won't break down under harsh sunlight and can be used for indoor and outdoor repairs.

T-Rex® Clear Repair Tape

Clear Repair Tape with All-Weather Crystal Clear Construction

Clear repair tape used indoors and out for quick and discreet repairs to a variety of surfaces, including those that require a water-resistant seal. T-Rex® Clear Repair Tape is engineered for versatility and conformability, delivering an all-weather, crystal clear construction with aggressive adhesion for a see-through finish to a variety of jobs.

T-Rex® Double Sided Super Glue Tape

Double Sided Super Glue Tape with High-Tack Acrylic Adhesive

Double-sided, super glue tape with high-tack acrylic adhesive that sticks on contact for fast fixes. A super sticky tape, T-Rex® Double Sided Super Glue Tape can be torn by hand for easy use and provides aggressive adhesion on variety of surfaces, including ceramic, concrete, glass, fabric, metal, plastic, tile, wood and more. A great alternative to glue, this double-sided tape can be used for mounting and automotive applications or for surface-to-surface repairs.

T-Rex® Extreme Tread Tape

Extreme Tread Tape with Multi-Layer Grit Embedding Process

Specialty tape with industrial-quality grip to help prevent slips and accidents. Engineered with a multi-layer grit embedding process and heavy-duty pressure sensitive adhesive, T-Rex® Extreme Tread Tape meets OSHA federal requirements to improve traction on a variety of surfaces such as steps and walkways. UV and weather-resistant, this tread tape can withstand temperatures from -40 F - 220 F.

DOUBLE-COATED CLOTH TAPES

We know you demand versatility to get the job done. From mounting to holding, our double-coated tapes have one thing in common: an unsurpassed level of quality.

DF 642

Industrial Grade Double-Coated Cloth Tape

Industrial grade double-coated cloth tape used for carpet and pad installation at convention centers, arenas and hotels, as well as for general purpose holding and mounting applications. DF 642 offers aggressive adhesion, conformability and an easy-release liner, making it a versatile solution for a variety of tasks.

Selecting the Right Tape for the Job

Not all tapes are created equal, so you want to make sure you are using the right type for the job. From general purpose repairs to heavy duty jobsite projects, Shurtape's portfolio of cloth and duct tapes delivers relentlessly reliable results.

ABATEMENT

- Co-extruded for use when building containments, remediation, restoration and abatement jobs, and mold/asbestos removal
- High-tack, high-performing cold temperature adhesive

RECOMMENDED TAPES

Duck Pro® PC 608, Duck Pro® PC 609

GENERAL PURPOSE

- The basic tool for everyday applications, such as bundling, sealing, seaming, repairing and holding because of its incredible versatility
- Can handle severe weather and non-critical conditions

RECOMMENDED TAPES

Shurtape® PC 9S, Shurtape® PC 7, Shurtape® PC 8

HVAC SYSTEMS

- For HVAC contractors working in vast temperature ranges, when needing a maximum-strength, high-performance solution
- Airtight bond on joints and seams

RECOMMENDED TAPES

Duck Pro® PC 621, Shurtape® ShurFLEX® SF 683, Shurtape® PC 857

SPLICING, MOUNTING & REPAIR

- Where excellent tack, holding power and conformability are required along with easy tearability on the job
- Wide variety of colors for sealing, seaming, repairing, holding and industrial color-coding and splicing applications

RECOMMENDED TAPES

Duck Pro® PC 9C, Shurtape® SF 682, Duck Pro® PC 618S

ARTS & ENTERTAINMENT INDUSTRY

- Temperature resistance, adhesion and clean removal make these excellent for arts and entertainment, photography and book-binding
- Meet the high standards for HVAC and industrial use as well

RECOMMENDED TAPES

Duck Pro® DF 545, Shurtape® P- 665W, Shurtape® P- 660, Duck Pro® PC 618C

STUCCO

- Easy to apply, strong enough to withstand the harsh scraping of a trowel and easy to remove with no residue left behind
- Protective masking of non-painted surfaces in plastering, stucco, concrete, pool and tile applications

RECOMMENDED TAPES

Shurtape® PC 667, Shurtape® PC 622

EXTREME ADHESION & PREMIUM DURABILITY

- High-performance solutions providing conformability and holding power, no matter the job
- Supplies highest tensile strength and extreme adhesion

RECOMMENDED TAPES

T-Rex® Brute Force®, Duck Pro® PC 745, Shurtape® PC 624

Shurtape®
TRUE TO YOUR WORK®

Shurtape® offers a full portfolio of pressure-sensitive tapes designed to deliver exceptional performance and superior results. We design, develop and craft our tape to one simple standard. Yours. We know you demand attention to every detail. We know you strive to do the next job better than the last. We know you won't settle for anything less than exact. It's what has guided and inspired us every day since 1955.

DUCK PRO®
BRAND DUCT TAPE
by **Shurtape®**

We make it our business to know what contractors need. So, we know you need to save time and get the job done right, the first time. Since 1955, we've strived to be a leader in all things tape and that's why we're bringing you Duck Pro® by Shurtape® — the brands you know with the quality and performance you trust. With tapes that are as versatile as they are durable, we've got you covered no matter what the job demands.

T-REX®
FEROCIOUSLY STRONG TAPE®

From heavy duty packaging and mounting tapes to a wide variety of aggressively strong tapes for all-weather durability, T-Rex® brand is designed for those moments in your life when you need intense holding power, no matter the application.
