

HP SERIES PACKAGING TAPES

HP 100®

MADE IN USA

CORE

HOLD STRONG

General purpose grade hot melt packaging tape for sealing lightweight cartons.

HP 200®

MADE IN USA

CORE

HOLD STRONG

Production grade hot melt packaging tape for medium-weight carton sealing.

HP 232®

MADE IN USA

COLD TEMP

CORE

HOLD STRONG

Cold environment, production grade hot melt packaging tape for sealing medium-weight cartons in temperatures from 20 F to 75 F.

HP 235

Medium duty hot melt packaging tape for sealing highly recycled cartons, including 100 percent recycled.

HP 240

MADE IN USA

CORE

HOLD STRONG

Production grade hot melt packaging tape with printed stock messages for sealing medium-weight cartons.

HP 300®

MADE IN USA

CORE

HOLD STRONG

Performance grade hot melt packaging tape for sealing medium-weight cartons subjected to handling stress.

RECYCLED SERIES PACKAGING TAPES

 HP 100

MADE IN USA

CORE

HOLD STRONG

Light duty hot melt adhesive packaging tape made with 90% post-consumer recycled (PCR) rPET film.

MADE IN USA

WITH US AND GLOBAL MATERIALS

We are proud to craft — and supply — the right tape solution for every job. And we are proud to manufacture many of those tapes right here in the USA. Look for this icon for items that are Made in the USA with Local & Global Materials.

 HP 235

MADE IN USA

CORE

HOLD STRONG

Medium duty hot melt packaging tape made with 90% post-consumer recycled (PCR) rPET film for use on highly recycled or 100% PCW/OCC cartons.

ShurSEAL®
PACKAGING SOLUTIONS

Folded Edge® Technology is a patented feature, available on ShurSEAL® automated and manual tape applicators, that folds both edges of the packaging tape along the length of the carton as it's applied.

Folded Edge Technology delivers ready to open case seals that don't require a knife and significantly reduces the risk of product damage, along with cuts and lacerations in the end-of-line packaging process.

KNIFELESS

RELIABLE

SECURE

Cartons will have an easy, no-knife opening, reducing the risk of product damage and injury to employees and customers alike.

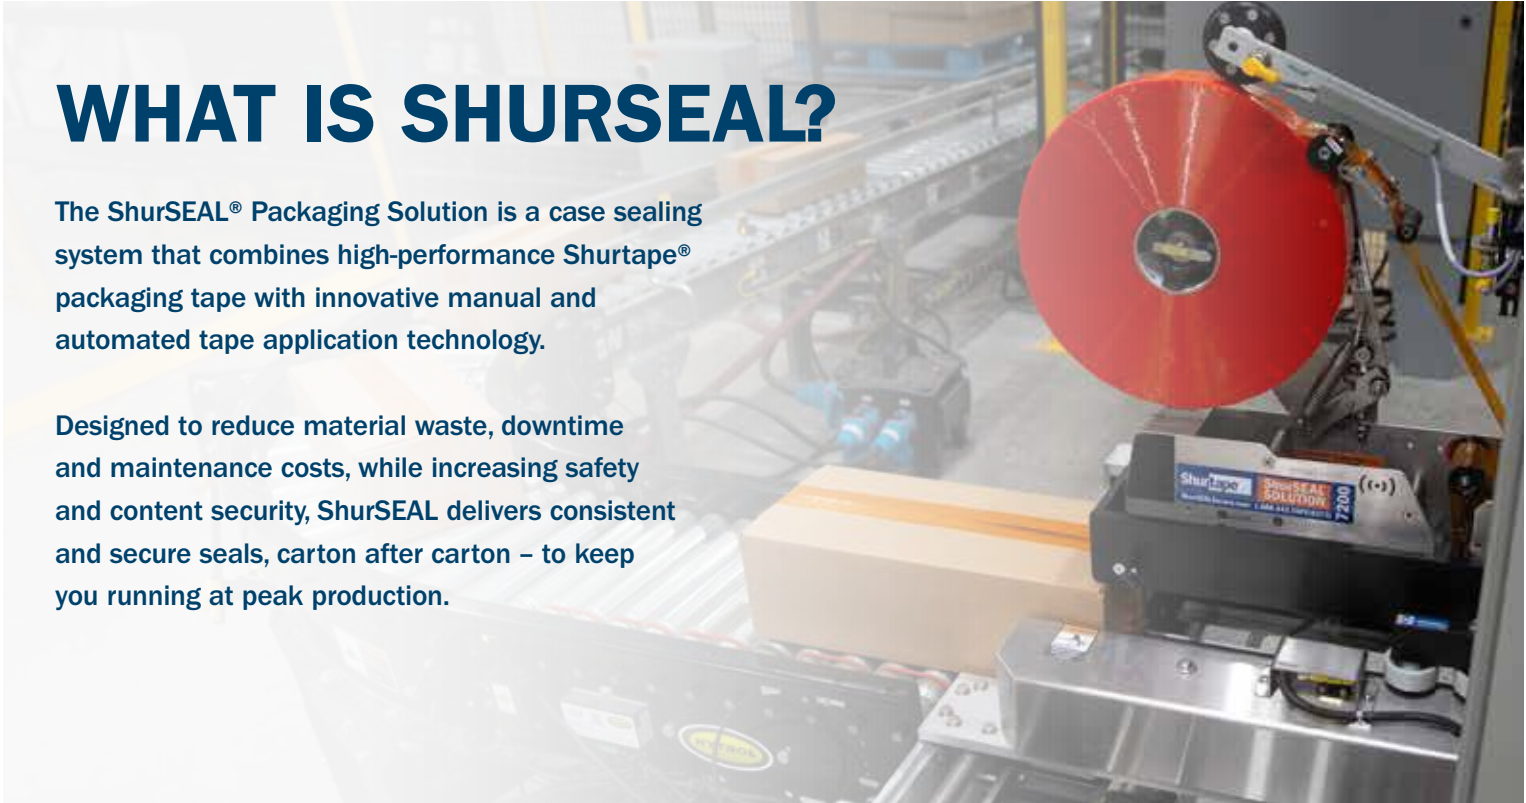

Cartons will have consistent tape application, resulting in better production throughput.

Cartons will have increased seal strength along the edges of the tape and at the major flaps to add security and reduce the risk of contamination during storage and transit.

WHAT IS SHURSEAL?

The ShurSEAL[®] Packaging Solution is a case sealing system that combines high-performance Shurtape[®] packaging tape with innovative manual and automated tape application technology.

Designed to reduce material waste, downtime and maintenance costs, while increasing safety and content security, ShurSEAL delivers consistent and secure seals, carton after carton – to keep you running at peak production.

WHY GO KNIFELESS?

Benefits to People and Product in Packaging Operations

People

Product & Operations

Reduce the Risk of Injury

On average, a laceration to an employee's hand can cost upwards of \$92,000* in terms of costs and lost labor. Folded Edge Technology creates a no-knife-to-open carton seal.

No Knife from Seal to Opening

Folded Edge Technology ensures both the users of your end-of-line packaging equipment and the recipient of your package stay safe by eliminating knives.

25% More Strength Required to Break Tape

Doubling the thickness of the edge of tape along the length of the box increases seal strength and reduces the risk of the edges being nicked or broken.

Prevent Damage, Contamination and Theft

Enhanced seal strength by folding the edges of the tape, along with unmatched wipe-down force via the tape applicator to deliver full utilization of the tape's adhesive, provide an added layer of security to keep contents secure from costly damage, contamination and theft.

PRODUCTS AVAILABLE WITH SHURSEAL FOLDED EDGE[®] TECHNOLOGY

The ShurSEAL Solution - 7000 Series, Carton Sealing Solution

Carton sealing solution that combines tape and tape applicator technology for automated carton sealing applications.

The ShurSEAL Solution - 8000 Series, Quick Change Sealing System

Quick change automated carton sealing solution for high-speed, high-throughput operations where there's no time for downtime.

FE-2" Folded Edge Hand Dispenser

FE-2" hand dispenser offering Folded Edge Technology for manual case sealing applications.

FE-3" Folded Edge Hand Dispenser

FE-3" hand dispenser offering Folded Edge Technology for manual case sealing applications.
