

ARE KNIVES CUTTING INTO YOUR PROFITS?

Folded Edge® Technology, available on ShurSEAL® automated and manual tape applicators, significantly reduces the risk of product damage, along with cuts and lacerations during the packaging process, ensuring a safer, knifeless working environment for you and your team.

PROTECT YOUR PRODUCTS

Cut the risk with Folded Edge® Technology

DAMAGED INVENTORY MEANS **LOST PROFITS.**

Manufacturers lose **\$15 billion** a year due to product damage.

THE SMART SEAL FOR **SAVINGS.**

Folded Edge® Technology enhances seal strength by folding the edges of the tape to provide an added layer of security, **keeping contents secure** from costly damage, contamination and theft.

FOLDDED EDGE® KNIFELESS RELIABLE & SECURE

BENEFITS

KNIFELESS

No knife needed. Simply grasp and remove the tape by hand.

RELIABLE

Cartons will have **consistent tape application**, resulting in **better production** throughput.

SECURE

Reinforced tape edge increases seal strength to keep carton **contents protected.**
