

ENHANCE YOUR CASE SEALING EFFICIENCY

SSCI for Continuous Improvement

What is an SSCI?

An SSCI evaluation is a **single shift continuous improvement** exercise that delivers a non-biased, fact-based report comparing a company's current end-of-line case sealing operations against the ShurSEAL® Solution to see if efficiencies can be gained.

Findings can Include

Efficiency
Gains

Case Seal
Integrity

Downtime
Reductions

Cost Saving
Opportunities

All in a Day's Work

1
Monitor Your Current
Case Sealing Operation

2
Monitor with ShurSEAL
Equipment Installed

3
Compile and Review
Your Data

4
SSCI Final
Report Produced

You Win!

A detailed, data driven report of continuous improvement opportunities and associated annual savings with descriptive observations and images will be provided. An SSCI Evaluation can save you **10% to 20%** in tape consumption!
