

ShurSEAL[®]
PACKAGING SOLUTIONS

SP 8000 QUICK CHANGE SEALING SYSTEM

Tape roll changeovers can be time-consuming and expensive – even brief interruptions in production can disrupt your packaging line and affect your bottom line. That's why Shurtape[®] offers a quick change sealing system, available with ShurSEAL[®] Automated Packaging Solutions, that pairs high-performance packaging tape with innovative tape application technology. This system is designed to drastically reduce time during tape roll changeovers – because there's just no time for downtime.

The SP 8000 Quick Change Sealing System seamlessly integrates into existing packaging lines to deliver

Secure Seals, Every Time.[™]

SP 8000 QUICK CHANGE SEALING SYSTEM

SAVE TIME. SAVE MONEY.

In fast-paced, high-volume manufacturing environments, there's no time for downtime. This innovative ShurSEAL sealing system puts an end to laborious tape roll changeovers that slow production, place unneeded stress on operators and keep lines from running at peak production.

When uptime matters, the Quick Change Sealing System gets the job done in seconds, and delivers the same secure seal you demand.

**100%
SATISFACTION
GUARANTEED**

OUR PROMISE TO YOU

If you are not 100% satisfied with the quality or performance of The ShurSEAL Solution, notify us and we'll refund any difference in price compared to your previous supplier.

Keeps Lines Running

When it's time for a change, simply remove the empty insert and replace it with a second pre-threaded insert – in as little as 10 seconds. For added efficiency, the interchangeable inserts are universal to the top and bottom units, so there's no need to store extra pieces.

Reduces Errors and Frustration

The threading process is easy, safe and completed offline. This affords operators more time to thread the tape roll correctly, while reducing the stress associated with replacing tape rolls as quickly as possible to minimize downtime.

Eliminates Straining and Lifting

The inserts are up to 60 percent lighter in weight than traditional tape applicators, so it's easy to complete changeovers without excessive lifting or straining.

Delivers Secure Seals

There's no sacrifice of seal quality – the Quick Change Sealing System offers the same high-quality packaging tape, unmatched wipe-down force and optional Folded Edge® Technology as the original ShurSEAL Solution. Plus, it's available in all standard configurations, including 2-inch, 3-inch and side mount, and easily retrofits to existing packaging equipment.
