

HP SERIES STANDARD PRINT PACKAGING TAPES

Keep shipments on track. From manual packing stations to automated lines, Shurtape® HP Series hot melt packaging tapes are built to maximize throughput to save time and labor. Available in a variety of easy-to-read, printed messages, these production grade tapes are designed to prevent pilferage while clearly communicating handling instructions. With bold, pre-printed messages, critical instructions stay visible at every step, helping ensure products arrive exactly as intended with minimized confusion, reduced damage and improved workflow productivity.

Featuring an instant, permanent bond to corrugated surfaces and consistent performance to the core, HP Series offers the highest holding power in the industry and more efficient tape consumption. So, shipments are stronger, clearer and more reliable, starting with the seal.

HP SERIES STANDARD PRINT PACKAGING TAPES

HP Series printed packaging tapes are engineered to deliver reliable performance and enhanced package security. Easy-to-read stock messages help deter pilferage while clearly communicating handling instructions to shipping and receiving personnel. The tape provides an instant, permanent bond to corrugated surfaces and features a special release coating that ensures smooth, consistent low-force unwinding throughout the roll. Designed to perform reliably to the core, it maximizes tape utilization and operational efficiency. Additionally, its high-tack synthetic rubber/resin hot melt adhesive creates a strong, long-lasting seal that helps protect packages during shipping and storage.

HP 240

For medium-weight carton sealing in normal manufacturing and shipping environments

HP 242

For medium-weight carton sealing in cold temperature environments, including produce packaging, meat and poultry processing, dairy facilities, cold weather moving/storage and unheated warehouses
