

WHETHER YOU'RE WORKING ON A NEW BOAT BUILD OR REPAIRING AN EXISTING ONE, TAPE IS A CRITICAL PART OF THE JOB. A SINGLE MISTAKE CAN RUIN THE ENTIRE PROJECT. SO, THE TAPE YOU CHOOSE COULD STAND BETWEEN A JOB WELL DONE – AND A JOB REDONE.

THAT'S WHY WE OFFER A COMPLETE PORTFOLIO OF TAPE SOLUTIONS THAT ARE ENGINEERED TO PERFORM IN CHALLENGING MARINE APPLICATIONS. FROM DURABILITY AND VERSATILITY TO CLEAN REMOVAL AND CRISP PAINT LINES, OUR TAPES DELIVER RESULTS YOU CAN RELY ON TO GET THE JOB DONE RIGHT THE FIRST TIME, SAVING YOU TIME AND MONEY.

FrogTape® Performance Masking Tapes

When crisp, clean lines on your next painting project are a must, trust the FrogTape® family of performance masking tapes. Ideal for use in the marine industry, these medium-high adhesion, clean removal masking tapes are compatible with gel coats, multi-part epoxy topcoats and antifouling bottom paints, as well as solvent-based and waterborne, aqueous paints.

DOES NOT contain PaintBlock® Technology.

FrogTape® 225 Gold (CP 225)

Performance grade, medium-high adhesion masking tape that delivers consistent paint lines, clean removal and conformability; use in temperatures up to 225 F (for up to 30 minutes).

FrogTape® 250 Light Blue (CP 250)

Performance grade, medium-high adhesion masking tape that delivers clean, flat edges for sharper paint lines, balanced conformability for curves and contours, and excellent adhesion to a variety of substrates; use in temperatures up to 250 F (for up to 30 minutes).

FrogTape® 325 Pink (CP 325)

Performance grade, medium-high adhesion masking tape offering durability, conformability and residue-free removal; use in temperatures up to 325 F (for up to 30 minutes).

FrogTape® FLC 280 Blue

Fineline masking tape used in topcoat applications to achieve a decorative design when tight curves are needed; use in temperatures up to 280 F (for up to 45 minutes).

FrogTape® FLS 325 Yellow

Low-stretch fineline masking tape used when crisp fineline edges are needed to achieve boot, cove, pin stripes or other designs; use in temperatures up to 325 F (for up to 45 minutes).

Heat Shrink and Hull Preservation Tapes

PE 900

9.0 mil, UV-resistant polyethylene tape used for marine shrink wrap and hull preservation applications like transporting and temporary outdoor storage.

PE 444

7.0 mil, UV-resistant polyethylene film tape used to reinforce boat heat shrink wrap seams to create a tight, continuous seal that protects the vessel during seasonal storage or transportation.

Duct Tapes

PC 6
Shurtape®

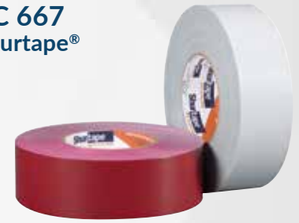

Utility grade, co-extruded cloth duct tape for non-critical, general use applications.

PC 9
Duck Pro®

General purpose, contractor grade duct tape – available in silver and a variety of colors – for all-weather poly-hanging, general repair and industrial color-coding applications.

PC 667
Shurtape®

Specialty grade, 14-day UV-resistant outdoor cloth duct tape for protective masking of non-painted surfaces for stucco jobs.

Electrical Tapes

EV 57

UL Listed, 7.0 mil electrical tape for use in general applications; available in black and a selection of colors.

EV 77

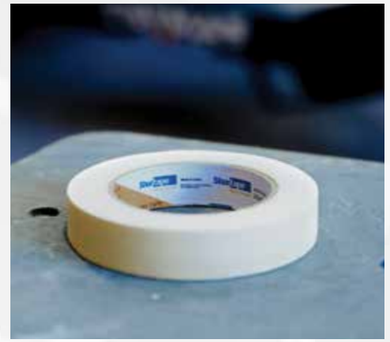

UL Listed, professional grade 7.0 mil black electrical tape for insulating and splicing applications; also available in a selection of colors for color-coding and phasing applications.

Masking Tapes

CP 105

General purpose grade, medium-high adhesion masking tape for non-critical bundling and labeling.

COL 00
Colonial®

Premium grade, high adhesion masking tape for industrial and general purpose applications.

Specialty Tapes

T-Rex® Extreme Strength Waterproof & Repair Tape

Engineered with an extra thick rubberized butyl adhesive, this tape provides heavy duty, waterproof adhesion in a wide range of repairs and conditions, even under water.

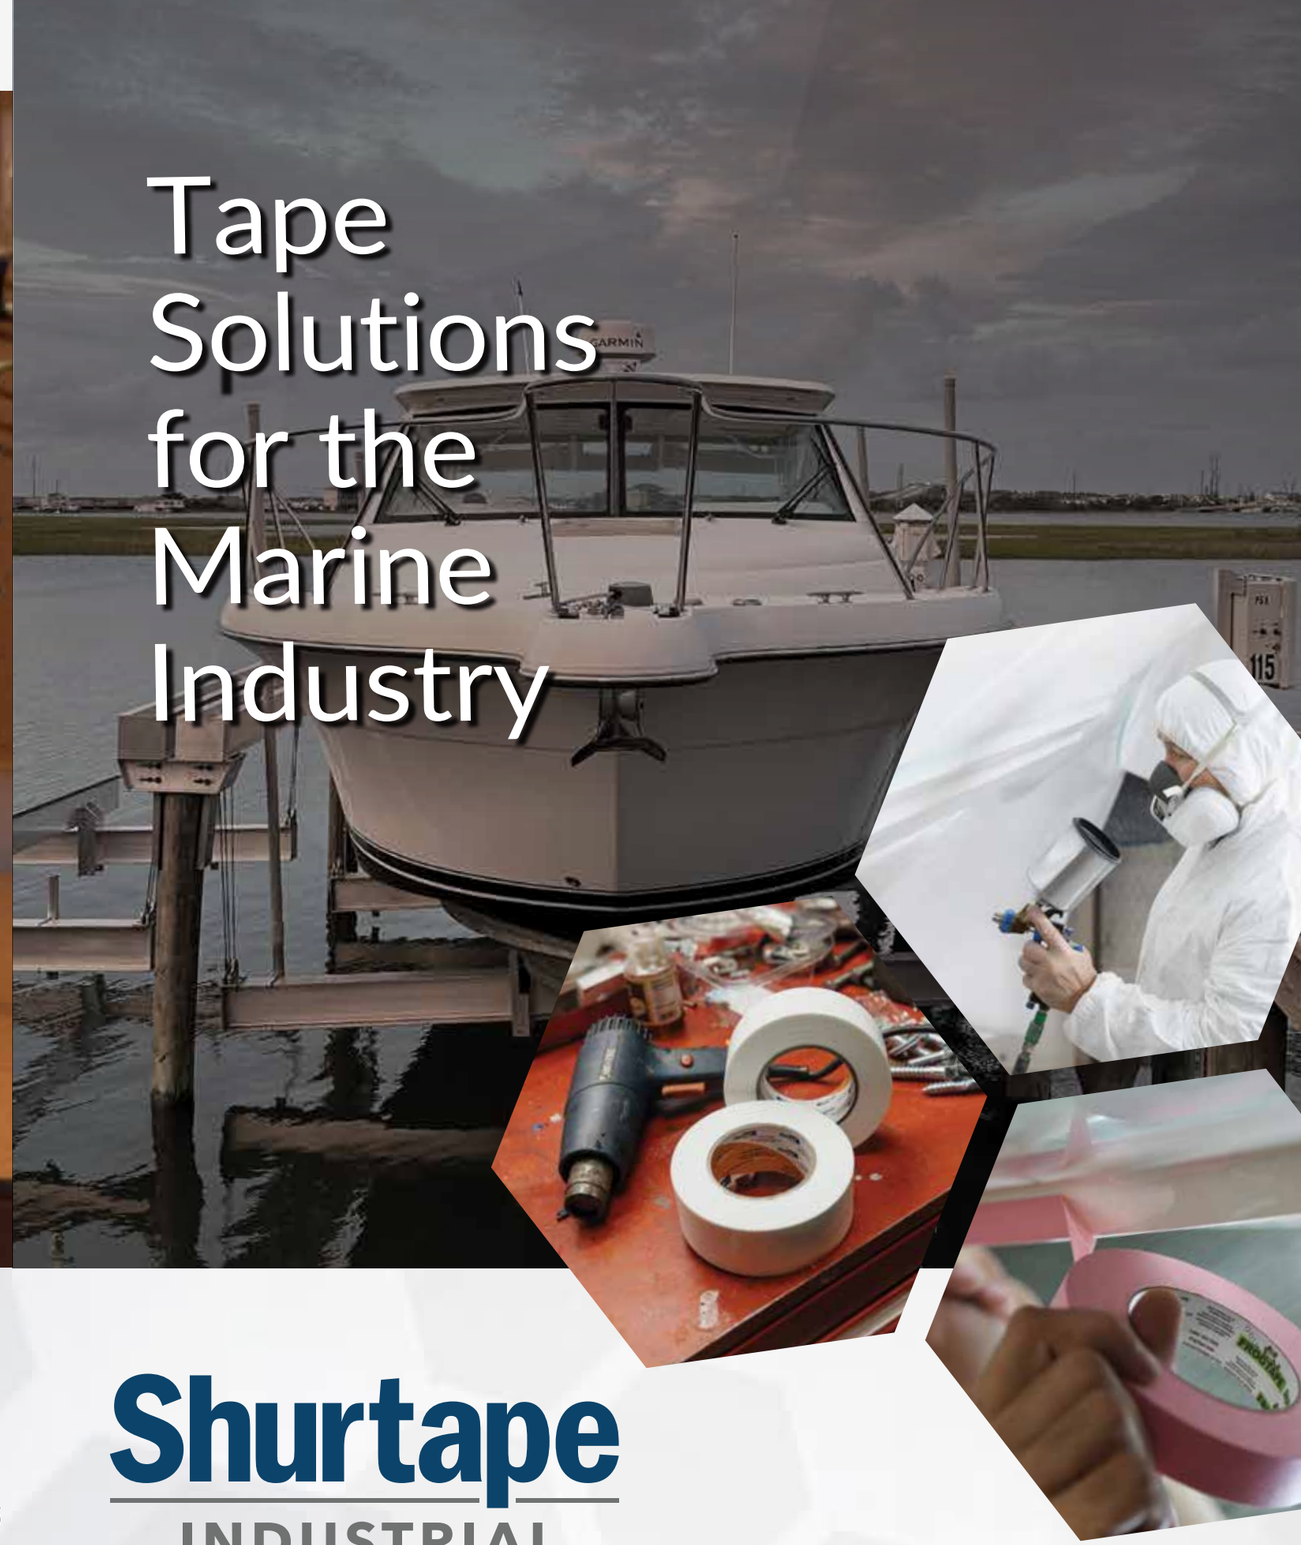

T-Rex® Waterproof & Repair Tape

Formulated with patent pending Flex-to-Fit Technology™, this fix-it-all tape outperforms duct tape in multiple applications and is a reliable solution for challenging repairs.
